**ADVISORY MEMO**

**TO: All Building Officials in Miami-Dade County**

**FROM: Herminio F. Gonzalez, P.E.,  
Director Building Code Compliance**

**DATE: February 6, 2003**

**SUBJECT: Pre-Engineered Metal Building Systems**

---

Manufacturers of pre-engineered metal building systems that have a valid Miami-Dade County Notice of Acceptance (NOA) for the roof and wall covering panels are not required to have a Structural Steel and Miscellaneous Metals Fabricator Certificate of Competency from this office. An NOA for these products encompasses the competency of the manufacturer to fabricate their product. Having an NOA will satisfy the requirements of Chapter 8 Article IV of the Miami-Dade County Code through the NOA quality control procedures.

Structural Steel and Miscellaneous Metals Fabricators can show compliance with 2223.11.2 of the Florida Building Code by having an NOA as referenced above or a Certificate of Competency as a Structural Steel and Miscellaneous Metals Fabricator issued by our office.

If you have any questions concerning this matter, you may contact Mr. Luis Casademunt of my staff, at (305) 375-2901.
